# PRESIDENT'S REPORT

Hi All

It is with sadness that I report to you that Peter Whiston a founding member of Corvettes of Melbourne and Owner of Corvette Clinic has passed and I would take this opportunity to pass on to the family our clubs condolences as he touched the lives of many of our members, myself included.

Corvettes Rock The Bay is all go so if you want to go there is still time register online or turn up on the day, there will be a contingent from over the border coming across and maybe GMSV (C8?) should be a great day with some special cars as well.

Today I was informed that the Canberra Nationals has been cancelled for the second time and our thoughts go out to Terry and his committee because we know how much work goes into putting on a Nationals and two years of your life, three years for the Canberra committee now, so we look toward 2023 Nationals in Victoria and hopefully they can go ahead.

Its not very often that we go on a club run and get treated the way we were, Thanks to Brian (Banjo) for organising it and to John for showing us his cars and feeding us. John owns CamperAgent and PowerTech tuning but he has a problem, he likes cars, fast cars, actually, very fast cars and he drives them, check out the photos of the run and for those that didn't come, don't miss it next time.

March is AGM and if anyone would like to be on the committee see us at the next meeting for a nomination form.

We are looking for car of the month candidates (see Adrian) and run and dinner organisers (see Sean)

What a start to 2022!

Happy Vetting

Specialising in C3 (1968-1982) Corvettes, we can do anything from routine maintenance to ground up restorations. This includes conversions to Right Hand Drive and reconversions on cars that do not meet current standards. We have a large inventory of new and used parts and panels in stock. Any parts that you require that are not in stock are normally 10-14 days away, as we place orders to America on a weekly basis.

Corvette Conversion Centre is pleased to announce that we have developed brackets to mount the RRS Rack and Pinion steering system to C3 Corvettes. This will be the perfect solution for poorly converted Corvettes or if you just want a more modern feeling steering system.

# BBII & George

There once was a Ford guy, who had lots of friends who were Chev guys. One day, he was invited by his Chevy guys to attend a long weekend to Hamilton, Victoria with the Corvette Club of South Australia.

He regrets this decision to this day. No, just joking - it was his best decision ever (wasn't it!!)

You may have heard of Hans Peverelli from Southern Radiators in Lonsdale. He was importing Corvette's back in the day and happened to have a Black C4 Corvette (LHD) which he was going to convert and sell.

Congrats Jim, you are now the proud owner of a 1985 C4 Black Corvette! (Circa 2005) Definitely do not want to miss all the fun the CCSA have.

Wow, so many stories... such little time. Am sure you hear some of them floating around at times.

Anyway, Hans and Jim then spent the next couple of years converting the car to RHD – one thing that Jim will never do, ever again... Sure was an eye opener. As the conversion progressed, conversation started on what 'modifications' we could do whilst we have the car pulled to bits. Hmmm... lets make it go faster....!

Hence, BBII was born..... (BBI is owned by Sean!)

Now, Why BB.... Well, there are Black Corvette's in the club and they have a tendency to break down at times. Hence the nickname BB.

Unfortunately BBII had her fair share of rides on the back of a tow truck, but always comes back stronger than ever.. until the next time.

When BBII is on song, boy, does she sing a lovely tune. If you have ever heard that super charger go past, whistling merrily away sounds awesome! And to have that power under your right foot... it is something special, however.....

One day, Catherine said to Jim., 'I really like George'. Jim replied with, 'Yeah, nice car'. Catherine responded with, 'No, you're not listening - I REALLY like George'. After some hard and fierce negotiations (not really) and waiting on a C6, Z06 (yep, that is true) to arrive for Sean and Kirsty, George was purchased and is now sitting in the carport alongside BBII and the Imperial.

A shout out to Jim. He has always managed to get us home, one way or the other, especially from Western Australia Nationals when the alternator failed and because it was a special one, we couldn't get a replacement over there. It was a juggling act, charging batteries each night, but we still had a great time (yes, even with Stuart) and managed to get home. No one needs to mention the lack of fuel situation.....

Oh, and before you ask, No, Jim won't be modifying George... he is staying just like he is.....!

Catherine & Jim.

Not sure why I am smiling – the tank was bone dry.....

## Powertech Camperagent cruise 16/1/22

It was a warm sunny morning and the carpark on the beach was full, which was rather inconvenient as that was our meeting spot for the cruise. Luckily Pete and Lynda turn up early everywhere and he had all the cars parked up the nearest side street as everyone gathered for a coffee at Noonies.

Banjo Brian had an offer of a club event at the business of Powertech/Camperagent on Pt Wakefield Rd, with a free lunch thrown in as part of the deal from the owner John Munro. Traditionally club events that include free stuff are well attended and 25 Corvettes rolled up. John Munro arrived for the cruise in his modified C7 Z06 with a family member in his C6 ZR1.

The Corvette caravan headed off up the Esplanade to the smiles and waves of the adoring public but without a U turn it was soon replaced by the obligatory C3 fuel stop instead. It's always C3's (except for Jim's famous Nullarbor incident of course), they must have extra small fuel tanks in them.

After fuel and photo's we were off down the Port expressway and the Northern expressway, for a quick blast before finding the opportunity for a club U turn to head back to Pt Wakefield Rd.

As we headed back along Pt Wakefield Rd the caravan was being led by C6 Z06 Jack until some shenanigans with some fast accelerating from the supercharged C7Z06 and C6ZR1 cars. Of course Jim didn't want to miss out and was like a little brother trying to keep up in C5 George.

Upon arrival at Camperagent everyone was lined up for the photo shoot and President Rob was officially issued with his new custom plates by Pete. I'm guessing long term project cars don't need a huge fuel tank do they? Everyone had a good wander around looking at the caravans, campers and a seriously impressive range of performance cars, with everything from SLR Torana's to Mclarens and 1000 hp Monaro's.

At the rear of the yard is an old house that has been converted into an entertainment area where the Munro family put on a great lunch with Yiros and BBQ. The hospitality was well received.

After an enjoyable day people headed off home later in the afternoon. John has offered up this day again to the club with a longer cruise next time and I'm sure this will be popular.

## 5 night stay over Easter Weekend 2022

### Replacement for the Canberra Corvette Nationals

As you would know by now the Canberra Nationals was unfortunately cancelled.

We are providing an alternative for the Easter weekend for those who are interested.

It is a preliminary plan, but we did a recky run a few months ago.

Thursday 14<sup>th</sup> April drive to Pt Pirie & stay 5 nights at the John Pirie Motor Inn, depart Tuesday 19<sup>th</sup> April.

Most people drive past Pt Pirie without spending time in the town. There are many places to see & drives to do using Pt Pirie as a base.

The Motel has only 10 rooms available at this stage. They can only hold rooms for 1 week, given it is Easter. Room prices range from \$135 to \$155.

If you are interested in coming you need to contact Lynda McBride
