JANUARY NEWSLETTER 2015

PRESIDENT'S REPORT

Hi All,

Another year is about to bite the dust and while we had a huge high with our National Convention and Snake Mans run to the desert, we have also had a few lows and our thoughts are with Robert and Julie Freak after his horrific accident and to Ross and Jan Spurling for the loss of their granddaughter, which is something that having become a grandfather for the first time in November, I can not even begin to imagine the loss that the family has to now endure.

January is a time for catching your breath, well almost as January 26th is the start of what is a very busy time for all our membership, Frantic February with more car events than time, especially Corvettes at the Port, check the events calendar for more details and plan your car event timetable.

Was that Kevin J with a fishing line on the Dolphin Cruise Xmas dinner and what was he fishing for? I was told that he was looking for a big sprocket for his Triumph but that would only slow him down!

The Lyndoch Street Party on the Lyndoch Oval in early December saw 12 Vettes displayed on what was a perfect night and a good night was had by all who attended.

Happy New Year and Happy Vetting

Car of the Month

Al Pupello (Member No. 130) bought this black 1988 C4 convertible in 2013, it's fitted with a 350 cubic inch engine and automatic transmission. It has grey interior trim and the vehicle is all original as it rolled off the factory floor.

The previous owner imported it in 2007 and had it converted and enjoyed it for 6 years before selling it to Al. The car had 22,000 original miles on the clock when he bought it.

Since owning the vehicle Al had to change the seat belts to comply with Regency Park requirements. Al says "The work was done by Dr. Graeme at Corvette World without fuss and did a great job".

Al's favourite outings are Corvette's at the Port, Zippel cruises and All American Day.

He also owns a red 1968 Camaro SS coupe with black interior a 396 big block and auto transmission. "All Throttle – No Bottle!!"

Specialising in C3 (1968-1982) Corvettes, we can do anything from routine maintenance to ground up restorations. This includes conversions to Right Hand Drive and reconversions on cars that do not meet current standards. We have a large inventory of new and used parts and panels in stock. Any parts that you require that are not in stock are normally 10-14 days away, as we place orders to America on a weekly basis.

Corvette Conversion Centre is pleased to announce that we have developed brackets to mount the RRS Rack and Pinion steering system to C3 Corvettes. This will be the perfect solution for poorly converted Corvettes or if you just want a more modern feeling steering system.

Corvette Christmas Dolphin Cruise

Well! What can I say? What a great turn out. 63 people from East, West, North, South & even the Clare Valley. We boarded the Dolphin Explorer for a 4 hour cruise, food, drinks & laughter with amazing company. There was a lady who really heated up the scene & not just on the dance floor. The night was just perfect, warm & calm, so much of the night was spent out on the front of the boat talking & taking in the sights, and yes there were dolphins.

The night went all too quickly. So a big thank you to Catherine for her planning, decorations, lollies & putting it all together. As I said 63 people now know what a great time you can have in this club, and there will always be great times to be had. Merry Xmas.

Mannum Run

An eager group of members turned up at Tea Tree Plaza ready for the day's excursion to Mannum.....with some there an hour before the proposed departure time! A total of 9 Vettes plus Graham & Karen's Ford (the Mustang which wants to be a Corvette) readied themselves for the journey out to Mannum. A cameo appearance by Laurie and Greg in their Vettes saw us

off safely on our way. With grey clouds starting to loom on the horizon it was time to get going and fire up our engines, a little bit of rain greeted us for the first portion of the hour long trip but as we got closer to our destination the sky's began to clear and a pleasant day lay ahead. Lunch was held at the Pretoria Hotel which is located in a prime spot on Mannum's main street overlooking the Murray River. Unfortunately on arriving at the pub Tony wasn't feeling the best and decided that a visit to the local hospital was in order. The rest of us had an enjoyable lunch, albeit a bit more subdued than usual given our concern for our fellow members wellbeing. After lunch a few of us checked in on Tony and Faye and reported back to the rest of the group. Tony ended up spending the night in Mannum but hopefully he is now firing on all cylinders again.

Message to the Editor:

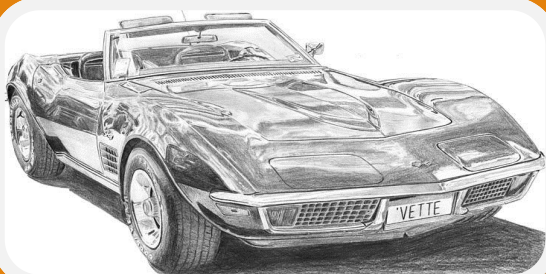

Hi Breck,
Please convey our thanks to the club members on the run for their support and well wishes when I had the "near miss".

I also appreciated their support for Faye during a time of stress, and the manner in which they were willing to put themselves out to assist Faye to get home if needed and also get the car home.

Thanks to all.
Faye & Tony Beer Smith

Christmas Party at Lyndoch Oval

The last official club run of the year saw 12 Corvettes converge on the Lyndoch Oval for a Christmas Party put on for the local community. It was a case of six of one and half a dozen of the other with our display consisting of six C3's and six C4's. A very relaxing night was had by all with member's wandering through the various stalls to check out what goodies were on offer. The tranquil evening silence was broken briefly as the sound of revving Chevy engines filled the air.....it also has to be said that there was a fair amount of blue smoke also filling the air!! Everyone had a good time, what a great way to finish the year off!

Book Review

I first reviewed this book way back in May 2011 as my first book review for the newsletter, my how time has flown. Okay this is an updated release of the book by Mike Mueller with a whole new chapter added to cover the C7.

The original book was 352 pages and I was critical of it's size, someone must have been listening because the latest version has been reduced in dimensions and is much easier to handle. The current version is 304 pages covering every year, which is broken down and dissected detailing each change and all the specifications this is more of a dictionary than a story. It's by no means a complete reference book but more a well researched guide to our favourite form of transportation.

The author is no lightweight himself having credentials including having been on staff at Corvette Fever, Muscle Car Review, Automotive Review and Mustang Monthly and contributing articles to a long list of other magazines. According to my research he is somewhat of a revhead himself but has managed to make a living out of it. With over fifty books to his credentials he is obviously a fairly knowledgeable fellow and apparently handy with a camera himself. He has been a professional journalist since 1991.

This book not only covers all the years but gives us a brief but detailed glimpse into the history of the Corvette along the way. There are a wealth of photographs contributed by the author himself and from the archives of GM, even if you're not into reading this book is worth the purchase just for the stunning photographs. Some have been swapped from the original publication or resized. It is an easy enjoyable read.

Everything Corvette is covered from the rarest of the experimental and concept vehicles through to many of the design concepts that never saw the light of day and if there is such a thing the ordinary every day Vette.

The book itself is broken down into the obvious segments of C1 through C6 with a smattering of history, the design process and evolutionary change of each progressive model. Year by year is then afforded a how too recipe card style fact sheet with all the basics from physical dimensions and weight, suspension brakes down to rims and tyres. The disappointing omissions in this area being production numbers and colour options. But maybe I'm just fussy.

Along with dedicated coverage of the race, show and experimental vehicles along the way. This is by no means a heavy history lesson but a light hearted walk down memory lane with plenty of photographs. The majority of pages bear only a few scant paragraphs with between two and four pages covering each vehicle.

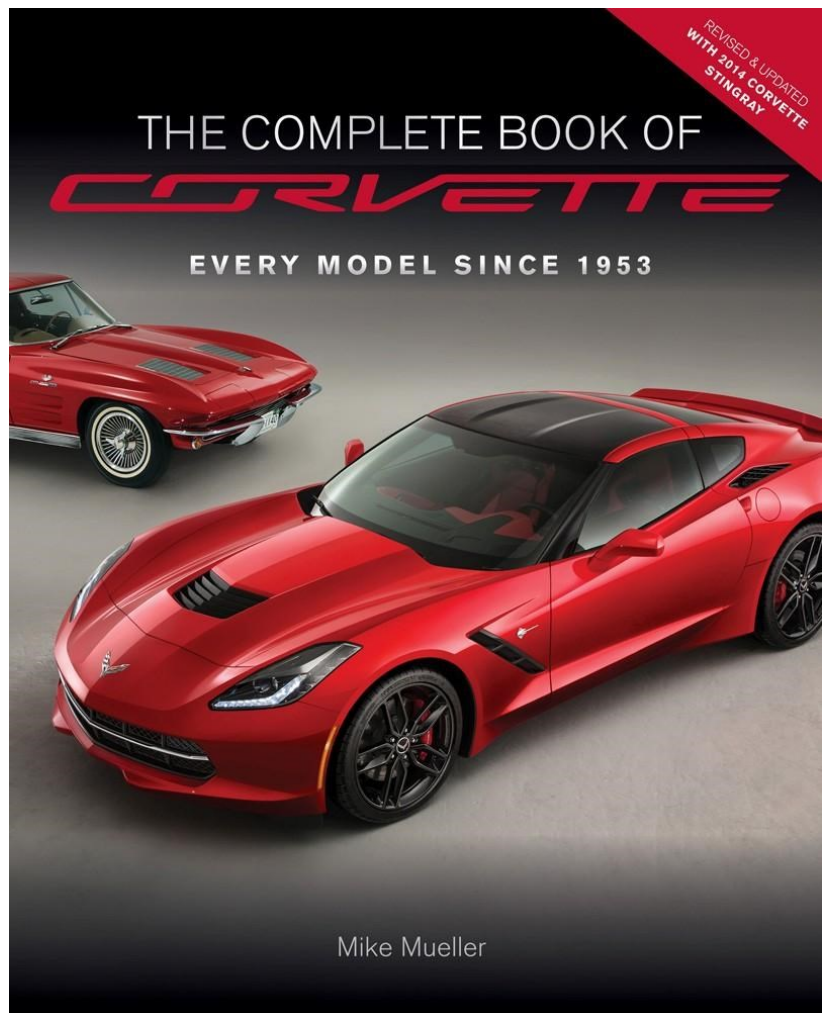

There is a 15 page Appendix which was provided by Mike Antonick the annual author of Antonick's Black Book which is a publication dedicated to all Corvettes and also available at www.corvetteblackbook.com.

This Appendix details year by year the option codes and availability for each Vette along with a USA costing of the option at that year's price.

Okay so this well bound glossy coffee table piece will set you back about the \$65 mark includes postage via every ones friends E-bay or Amazon.

It's current, factual and as a research tool bloody handy to have. The full facts on the C6 and up to date information on the C7 to its convertible release are a welcome addition. An addition to your library I still would recommend definitely, but only in the hard back edition.
